Inspiring Local Minds

2020 Scholarships

Inspiring Local Minds

The Lines Company's (TLC) scholarship programme provides recognition and financial reward for three local students each year who intend pursuing tertiary education or trade training.

Eligibility Criteria

Applicants must:

- live/have gone to school in the TLC network area
- be graduating from high school and intend to continue their education by studying to enter a profession linked to jobs at TLC (see list)
- be accepted into their chosen course or trade at a recognised institution
- have a proven record of achievement
- agree to publicity over scholarship award and their career path, attending functions, or other events or scholarship award ceremonies
- be a strong representative of TLC values — keep well, be proud, be awesome and own it
- commit to a repayment programme should the study not be completed.

Opportunities

Some employment or mentoring opportunities at The Lines Company may be available during holidays.

Funding

Funding is allocated annually once students have been accepted for their course of study and have provided TLC with bank account details.

Three \$2,000 scholarships for each year of study are available, for a maximum three years.

Selection panel

Scholarship recipients are chosen by a selection panel that meets once a year. All short-listed applicants must be available for a face-to-face interview with the panel.
