## Explanation of price changes

The April 2020 price changes represent the balancing required to ensure affordability to our customers and provide an adequate return to the company. We continue to fund our renewal programme with a focus on network safety, taking into account our new pricing structure.

In addition, pass-through prices were changed to ensure that we meet the requirement that the pass-through component of our prices reflects our forecast pass-through and recoverable costs.

\*This pricing change is TLC's response to New Zealand's COVID-19 alert levels. This is a challenging and uncertain time for the whole of New Zealand. To recognise this, we want to do our bit for our customers and provide some special pricing relief in April 2020.
